

Reported Speech

Activity 1

Rewrite the passage using **direct speech**.

The science teacher said that she was very pleased with the students' recent performance. She explained that they had been working on an important project for the past two weeks and that most groups had already completed their experiments. She added that some students were still struggling with writing their reports and that they should revise the guidelines carefully. She reminded them that they could use the lab equipment only under supervision and that they must follow safety rules at all times. She also said that she would be giving a short quiz the following day and that the marks would be added to their term assessment. She mentioned that if students did not submit their reports on time, they might lose marks. Finally, she told them that she had already informed the principal about their progress and that she hoped they would continue to improve.

Activity 2

Rewrite the passage using **reported speech**.

Passage:

The student leader said, "I am very proud of our class because we are improving in both academics and discipline. We have been preparing for the inter-class competition for the last month, and many students have already shown great improvement. Yesterday, we finished our practice earlier than usual because the coach allowed us to leave early. I will be organizing an extra revision session next week, and I can help anyone who is struggling with difficult topics. We might face challenging questions in the exam, but we will be able to answer them if we revise properly. I am going to meet the teachers tomorrow to discuss our progress, and I hope they will give us more guidance. By the end of this term, we will have achieved better results if we continue working hard."
